

App of the Month

This month's App from the Apple platform is...

Math Lab for Kindergartens

Helps your little one learn their colours, numbers, shapes and patterning skills with Math Lab's App for Kindergarteners!

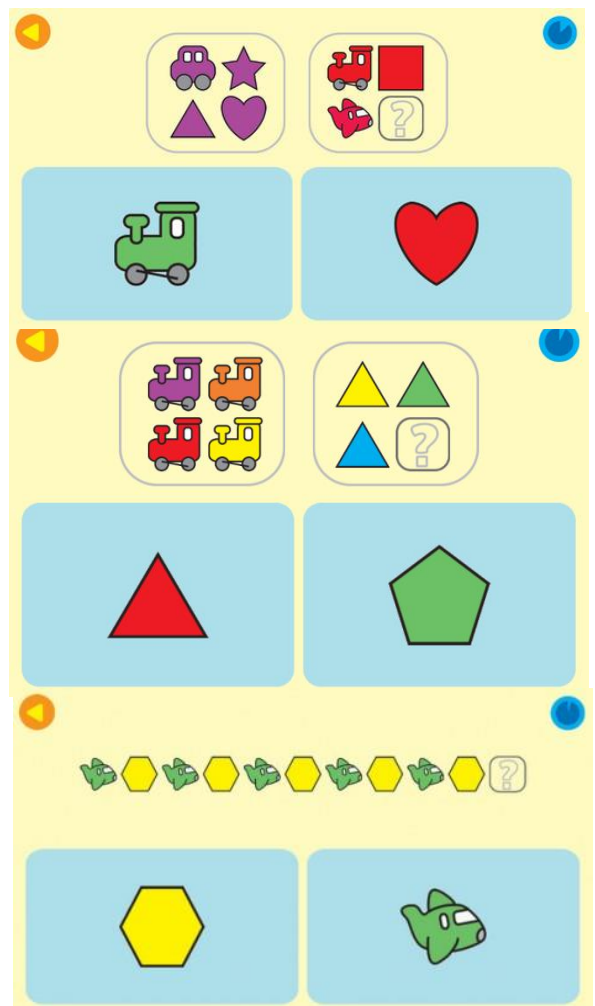

Math Lab works on the following skills:

- Number recognition
- Pattern completion
- Comparing sizes
- Comparing numbers
- Naming shapes & counting their sides
- Skip counting
- And many more! Once they have mastered these skills, they can move on to Math Lab for Grade 1

Parents, you can choose whether you would like for the child to focus on a specific skill or move through the mazes and games. Each math concept is addressed in multiple lessons and in different ways to make sure your child learned the necessary fundamental skills!

Parents can feel safe with this app as there are NO external links, 3rd party apps, in app purchases and social media links.

Available for \$ 1.99 on the iphone and ipad
